Are you looking for an opportunity to combine your desire to teach and your interest in technology? Do you have growing opinions on information literacy and the metaverse? Then check out our newest position, Emerging Technologies Librarian at the University of Alabama at Birmingham. The Emerging Technologies Librarian will provide instruction and outreach for emerging and existing technologies in the UAB Libraries and contribute to team-based technology-focused ideation activities in the libraries new Emerging Technology and System Development Department. The department operates four technology-focused spaces that provide access to 3D printing, extended reality, and media creation equipment. New and soon-to-be graduates of ALA-accredited Master's degree programs are encouraged to consider this opportunity. This is an open-rank non-tenured faculty position. Minimum salary for UAB Libraries appointments is $55,000 annually at the Assistant Professor rank and $65,000 annually at the Associate Professor Rank.
